

BBC Faculty Senate Minutes

October 18, 2012

Senators: David Talty, Neil Reisner, Maria Elena Vilar, Lauren Christos

Guest: Steve Moll, Vice Provost/BBC

Meeting began at 12:30 pm

Committee continued further discussion on issues regarding the BBC campus. Lauren Christos and Neil Reisner shared information that was discussed at the Faculty Senate Steering Committee. There continues to exist a lack of information that is shared with the faculty by the upper administration. There is a lack on input from faculty on matters that impact the university faculty.

Additionally, BBC Senators, while agreeing in theory to pursue updating our BBC Strategic Vision Report, shared reservations about the practicality of investing time into this project. Nonetheless, we will create a report that will, as best as we are able to, reflect the possibilities that could occur here even within the ever changing Master Plan.

At this point, we agreed to go back to our respective colleges/depts/library and consult with our colleagues and administration to assist us coming up with ideas that will provide input into our report. We will review the 2010 report that was previously created for ideas regarding content and format. Steve suggests that the update we do for the report should continue to be with the same topics that we did the first one with "Hit the ground running".

There is currently no deadline for this report.

On October 9, Lauren Christos sent an email to Javier Marques inviting him to attend a BBC Faculty Senate meeting. She also cc: the senators and Faculty Senate Chair Gray. Having heard no response, she resent one on October 19.

Meeting adjourned: 1:58 pm

Next meeting: 12:30 pm, November 1

Respectfully submitted,

Lauren Christos, Chair
